

SUMAITHANGI TRUST

LOVE IS SERVICE

THE FRUIT OF SERVICE IS PEACE

Vision

To work for the welfare of the women who are unorganized laborers

Mission

- **To ensure sustainable development for women, where they can survive Independently.**
- **To ensure underprivileged communities have better educational opportunities and enhanced livelihood skill.**

ABOUT US

Sumaithangi Trust is a social service organization that sponsors awareness campaigns to bring about social change. We are a non-profit organization dedicated to "Serve the Most in Need". We are mainly working for the welfare of women, migrant laborers', unorganized workers, Disabled people, and Children's education, especially for Tribal children.

Our Activities

SKILL TRAINING PROGRAMME

Sumaithangi Trust offers various skill training programs for urban poor women to sustain their livelihood. This program was started in 2006 with the high objective of creating self-motivated and self-sustainable women who can take care of themselves and their families. We have started this journey with a certified tailoring course. Later, the Trust also started training courses like Computer Training, Folk Art Training & Sports Training. This helped the trainees to learn technical skills and life skills. Till now thousands of women have benefited through our skills training and settled in their life.

URBAN POOR DEVELOPMENT PROGRAMME

The Trust works with the urban poor resettlement community in Perumbakkam Area to address their Socio-Economic needs through the formation of women's groups, organizing domestic workers, establishing evening study centers for children, and organizing medical camps. The activities of the study center are embedded with an enrichment program integrating yoga, sports, theater, creative art, a self-defense program, and academic studies.

NARIKURAVA TRIBAL CHILDREN EDUCATION

A decade before the Sumaithangi trust was adopted the Narikurava community has one of the thrust areas since they were below the poverty line and educationally backward when compared to other weaker sections. Therefore, the trust organized a special program to stimulate the interest of Narikurava community children in education. The trust also created two residential schools in two south districts (Sivagangai and Perambalur) of Tamil Nadu exclusively for Narikurava children. This school focuses on the all-around development of the children.

SUYAMVARAM (MARRIAGE ASSISTANCE SUPPORT FOR THE POOR)

The marriage assistance program is another key initiative of Sumaithangi Trust. It's an initiative to help a disabled person to find their life partners. The trust facilitates them to find their partners and offers them with necessary aid to start their new family and set up their house. It's a successful program of the trust which helped thousands of differently-abled people get into family life and find their future with the support of their spouses.

EMERGENCY RELIEF ASSISTANCE

Disaster management is one of the central focuses of Sumaithangi Trust. The trust addressed all the natural disasters in the last 20 years. Trust had offered valuable relief activities during the Nisha cyclone of 2008, the Thane cyclone, the massive flood in Chennai in 2015, the Vardah cyclone, the Odisha cyclone of 2016, the Gaja cyclone, the Nivar cyclone, and the Kerala flood. The Trust also rendered its services during the pandemic. This COVID relief initiative of Sumaithangi Trust helped more than one lakh families across Tamil Nadu with the help of philanthropists, support groups, and individual donors.

EDUCATION SPONSORSHIP

The main aim of the trust is to uplift the children of domestic workers, and migrant laborers through quality education and life skills. We are sponsoring higher education for all deserving candidates, especially for the economically backward, orphans, physically challenged, deserted children, and single-parent children. The Trust sponsorship includes fee payment, education counseling, and carrier guidance. The beneficiaries of this scholarship are talented enough to get good jobs since they are trained in life skills and leadership skills. The trust also organizes an awareness program on Madras University Free Education (MUFES) this paved the way for the students to make choices to apply for medical and Paramedical courses as well as some professional courses. The trust also organizes an annual awareness on the Right to Free and Compulsory Education Act for parents and students to gain insights on private education. The Sponsorship program of Sumaithangi Trust helped thousands of poor children to get quality education.

FREE HOME FOR THE STUDENTS (WOMEN)

The trust has been running a Home at Mogappair east (Chennai) for women who all are studying. The home offered a safe and secured space for living with dignity and respect. Further to this, the home offered quality nutritious food, recreation space, counseling support, peer learning space, marriage assistance, and employment linkages.
